WORK EXPERIENCE

Thermo Fisher Scientific • IT Leadership Development Program

July 2009 – Present

- Global Infrastructure Services; Pittsburgh, PA
 - Served as project manager for the architecture and implementation of a European internet hub site in Highbridge, UK as well as the subsequent consolidation of selected substandard European internet sites.
 - Performed project management oversight for several projects. Generated and presented 10-blocks for each on a bi-weekly basis.
 - Developed and presented framework, design and search functionality for an IT location and contact directory for use in the iConnect SharePoint environment.
 - Assisted in project management for the roll out of network acceleration hardware in ten locations. In tandem, led an effort to work with customers in creating end-user experience testing documentation.
- Global Applications; Woburn, MA
 - Performed project management oversight for many projects, including iConnect and SAP implementations.
 - Developed and rolled out a new concept, framework and design for the IT project management toolkit for use in the iConnect SharePoint environment.
 - Assisted in the development of licensing standardization and server security for the Datango software rollout.
 - Trained end users on the development of training modules within the Datango eLearning suite.
- Process Instruments Division; Billerica, MA
 - Collaborated with IT leaders and users to identify and document common file service needs and current IT solution capabilities for several business units.
 - Created a catalog of common, end state IT services to map existing needs to.
 - Developed an IT service transition framework to be used as an operational execution guide in transitioning current solutions to an end state service catalog.
 - Calculated savings, cost avoidance and other advantages as a result of the file services transition project.

Verndale • Search Engine Marketing Specialist; Boston, MA

Jan. – Sept. 2008

- Developed, presented and implemented search engine optimization processes and campaign strategies.
- Created and managed pay per click advertising campaigns and budgets.
- Maintained client projects and relationships for the life of contracted engagements.
- Trained and managed outsourced labor.

Massachusetts Institute of Technology • eMedia Producer; Cambridge, MA

Jan. – June 2007

- Assisted professors with media delivery technology.
- Captured video, edited content, transcoded webcasts for use on MIT's website.

Thomson Financial • Website Developer; Boston, MA

Jan. – June 2006

- Created, edited, troubleshot, and quality assured CSS, HTML, Javascript and XML according to client specifications and W3C standards.
